Timeless beauty
**THAT CAN STAND THE
TESTS OF TIME.**

Attractive as they are, we’re all too aware that conventional slate tile and cedar shake aren’t immune to everyday—or extraordinary—wear and tear: ongoing wind, snow or exposure to salt air; freeze & thaw cycles; insect damage; accidental fires the list goes on.

How can your neighborhood keep the look, and eliminate the hassle? With DaVinci.

- Resistant to cracking, chipping, fading, and pests
- Stands up to wind, hail and fire as well as or better than natural materials
- Delivers the peace of mind that comes with a Lifetime Limited Material Warranty

Count on what's inside
**TO PROTECT HOMES FROM
WHAT'S OUTSIDE.**

Whether you want the traditional look of shake, or the classic appearance of slate, DaVinci has you covered.

- Made of virgin resins fortified with state-of-the-art UV stabilizers—so the color on day one is the color for years to come
- Modeled from actual slate and shake for natural, non-repeating beauty
- Detailed to present an authentic texture and hand-crafted look
- Formed with our proprietary VariBlend™ manufacturing process, to create subtle color variations and deliver the most natural-looking composite roof you can buy

Simply put, DaVinci composite roofing combines timeless beauty with state-of-the-art performance. So you can count on the homes in your neighborhood looking good, for life.
