PERFECTLY AT HOME

in every corner of the continent

WILMINGTON, DELAWARE

Hot and steamy defines this Delaware town. The subtropical setting has 60% humidity consistently throughout the year and gets an average of 9 days of precipitation each month.

**WE FIT
YOUR STYLE**

**WE STAND UP TO
YOUR WEATHER**

*From the mountains to the coasts...
Wherever you call home, a DaVinci roof
lives up to your vision of beauty and stands
up to the challenges of your weather.*

DaVinci has been the leader in composite roofing for more than two decades. Our commitment to creating durable, beautiful roofing tiles is unparalleled. You won't find a more realistic or better-performing roofing product anywhere.

With DaVinci, you can retain all the character your home was intended to have without worrying about time-consuming and costly maintenance. Whether you're replacing an existing roof or looking for the crowning touch on a new construction project...
just leave it to DaVinci.

*Engineered to look
better, longer.*

*Thick construction,
deep grooves and
realistic grain patterns
combine to create
dramatic shadows
and visual richness.*

*Due to DaVinci's performance
features, many insurance
companies now offer reduced
rates when switching from cedar
or slate, especially in high wind-,
fire- or hail-prone areas.*

*Realistic chisel marks
add a hand-crafted
finishing touch.*

VS. NATURAL SHAKE

Unfortunately, the long-hailed performance attributes of cedar shake have disappeared along with old-growth trees. Rotting, cracking and curling is inevitable. In most climates, cedar shake has a lifespan comparable to (or even less than) asphalt. DaVinci composite tiles give you the look you love with superior durability for a lifetime.

DaVinci roofing tiles are proudly
manufactured in Lenexa, Kansas.

WHAT'S BEHIND THE BEAUTY IS *Genius*

DaVinci tiles are made of pure virgin resins fortified with state-of-the-art UV stabilizers. The color you pick is the color you keep.

DaVinci products are modeled from actual slate and hand-split shake for natural, non-repeating beauty.

Every region of North America presents challenges to the exterior of your home. Mother Nature's fury is universal.

With the damaging effects of sun, hail, gale-force winds and freeze and thaw cycles, roofing materials are at odds with the weather year-round.

DaVinci's unique composite construction outperforms both natural slate and cedar shake with a Class A Fire Rating, Class 4 Impact Rating and up to 180 MPH Wind

Rating. But the real genius of a DaVinci roof lies in its ability to provide lasting beauty and a constant source of pride.

DaVinci roof tiles are constructed of a composite material made of pure virgin resins, UV and thermal stabilizers as well as a highly-specialized fire retardant. The result is a state-of-the-art tile that gives us the greatest degree of color control and consistency in the manufacturing process and an end product that endures beautifully in any climate.

VS. NATURAL SLATE

Like a rock? Slate tiles are not immune to the ravages of time...or hail. Its tiny fissures make natural slate susceptible to damage caused by freeze and thaw cycles. DaVinci slate products defy the elements for decades of enduring and worry-free beauty.

Our commitment **TO COLOR**

Nobody offers you more color options than DaVinci—your only limitation is your imagination.

Our industry-leading standard color palette is just the beginning. As our name implies, our ability to blend colors and create drama is unparalleled. So whether you're selecting a single color or opting for one of our expertly-crafted VariBlends,[™] we've got you covered.

When it comes to bringing out the best in your home...leave it to DaVinci.

JUST LIKE NATURE

DaVinci's proprietary VariBlend[™] manufacturing process creates subtle color variations from one tile to the next. The nuanced shifts result in the most natural-looking composite roof you can buy.

Our color blend options consist of as few as one to as many as eight individual colors to create a dynamic range of results.

THE DAVINCI NATURE CRAFTED COLLECTION®

The DaVinci Nature Crafted Collection is our

most ambitious foray into color development to date.

Our advanced technology has simulated the warmth

and exposure to the elements. Our Nature Crafted

BUILT TO BE COOL AND STAY THAT WAY

DaVinci Cool Roof tiles reflect sunlight and heat away from the home.

Higher emissivity and reflectivity rates lead to greater reductions in the
